Re: Letter of Submittal for Revision to Kansas State Implementation Plan

Dear Mr. Hague:

In accordance with 40 C.F.R. Part 51 and Section 110 of the Federal Clean Air Act, and as the designated representative of Governor Sam Brownback, I am formally submitting a revision to the Kansas Air Quality State Implementation Plan (SIP) for your review and approval. An identical electronic copy of this submittal is also being submitted electronically, it is an exact duplicate of this paper submission.

This submittal updates the SIP to reflect finalized amendments to the following Kansas Administrative Regulations (K.A.R.) 28-19-11, *Enforcement discretion due to start up, shut down, malfunctions, or scheduled maintenance*.

The regulation was adopted on October 13, 2016, published in the *Kansas Register* on October 27, 2016 and effective on November 14, 2016. Administrative materials and technical support documents required for a determination that this SIP amendment is an official submission for the purposes of review are enclosed.

If any additional information is required, please contact Douglas Watson at (785)296-0910.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan Mosier, MD".

Susan Mosier, MD
Secretary of Health and Environment
